Server 1

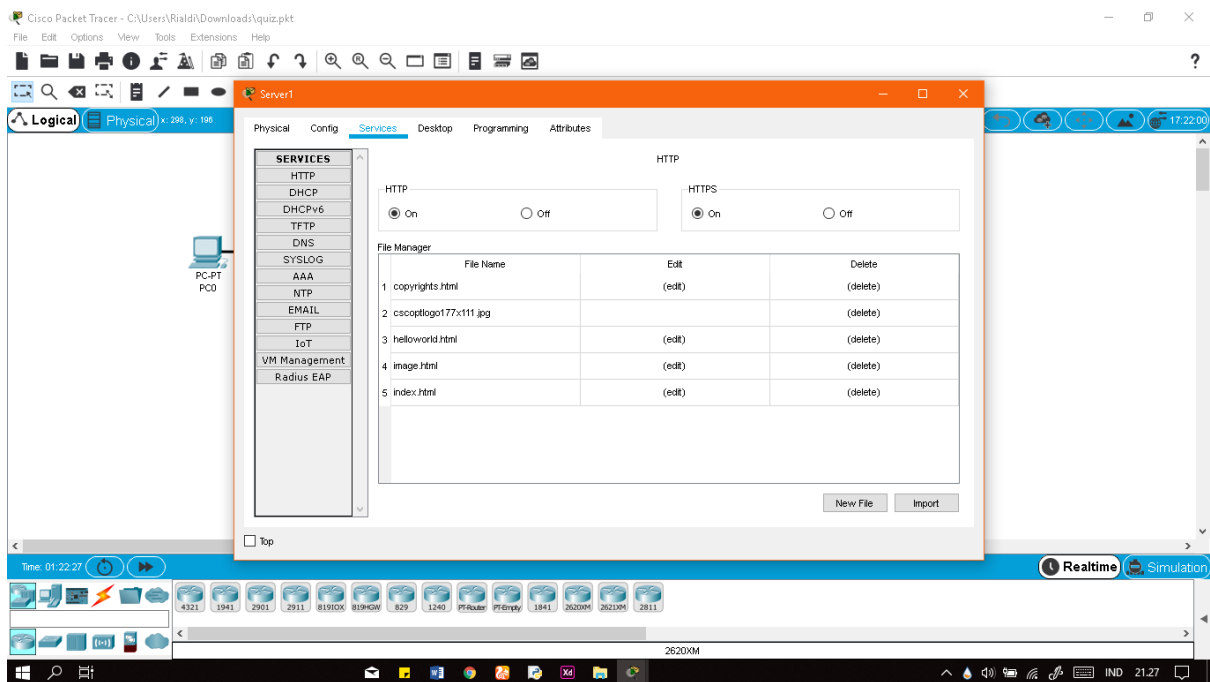

The screenshot shows the 'Server0' configuration window in Cisco Packet Tracer, with the 'Services' tab selected. The 'SERVICES' list on the left includes HTTP, DHCP, DHCPv6, TFTP, DNS, SYSLOG, AAA, NTP, EMAIL, FTP, IoT, VM Management, and Radius EAP. The 'HTTP' section is expanded, showing 'HTTP' and 'HTTPS' both set to 'On'. Below this is a 'File Manager' table with the following files:

	File Name	Edit	Delete
1	copyrights.html	(edit)	(delete)
2	cscoplogo177x111.jpg		(delete)
3	helloworld.html	(edit)	(delete)
4	image.html	(edit)	(delete)
5	index.html	(edit)	(delete)

At the bottom of the File Manager are 'New File' and 'Import' buttons. The background shows the network topology from the previous image, with the time now at 01:22:08.
